Design shelving M2

Extremely stable with a high load capacity.

This modern designed racking system M2, is extremely stable with a high load capacity. By utilizing the corner racks and the combination of widths from 1000 and 750 mm allows optimal usage of all available space. The shelving is light grey in colour (RAL 7035) and is available in three depths of 400, 500 and 600 mm. Each shelf has a 40 mm edge, and the shelves can be adjusted in height in 86 mm steps by simply slotting into the next side column slit. The side columns (horizontal elements) are constructed of round metal tubing (\varnothing 40 mm) with welded side panels, which are powder coated in aluminium silver, (similar to RAL 9006) colour.

Three heights are available: 1800, 2200 and 2600 mm.

	1800 mm with 4 shelves				2200 mm with 5 shelves				2600 mm with 6 shelves

Office shelving Progress 2000

PROGRESS 2000

Extremely stable steel office shelving ...

- An extremely stable slot-in easy assembly system
- Optimal use of space by utilizing the corner shelving and two available widths of 750 and 1000mm
- Shelves are adjustable in steps of 59 mm
- High quality powder coated in either black (RAL 9011) silver (RAL 9006) and light grey (RAL 7035)
- Load capacity per shelf for 300-400 depth: 100 kg for 500-600 depth: 120 kg with shelf supports: 200 kg
- Load capacity per shelving unit: 1000 kg
- Width per shelving unit = width + 30 mm (vertical support column width)

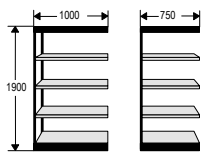

Shelving unit external dimensions:
 Depth = shelf depth + 40 mm
 Width = unit width + 30 mm
 Depth (corner unit) = 370 mm + 30 mm
 The width of a corner unit is 505 mm

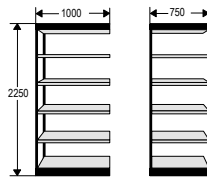

from **296,-**

Cantilever shelving Univers

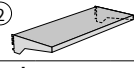

Continuous cantilever shelving Slot-in assembly.

These cantilever shelving units are quick and easy to erect due to the simple slot-in assembly system. The individual shelves can be easily changed and varied. The height of shelves is variable in 16 mm steps. Files of varying depths and construction can be easily stored. The combination of the varying widths available of 1000 and 750 mm allows optimal usage of room space. All components are of high quality steel with a polyester coating except for the cabinets which are E1-wood and have melamine coated surfaces. Shelving colour: light grey RAL 7035

Library shelving Libra

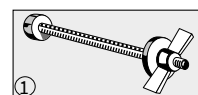

Libra

Library shelving in a modern design with numerous variation possibilities. A feature of the construction are the light but very stable 3 round steel tubular vertical upright profiles, with diagonal welded metal stabilisers. All parts are powder coated in black RAL 9011, the frame has adjusting screws enabling a stable level assembly. The uprights have slots in them at 20 mm intervals for the fixture of the shelves. The individual shelves are available in E1 grade wood with melamine surfaces in beech, or steel shelves powder coated in light grey RAL 7035 colour. The shelves are available with a 90° edge which is 40 mm high.

Storage shelving Stora 100

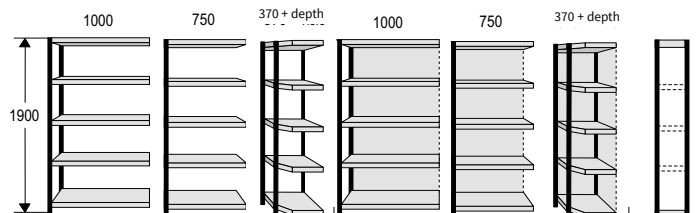

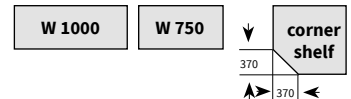

STORA 100

Medium heavy construction for load capacity up to 100 kg *

Extremely stable slot assembly elements, the use of corner units and combination of 1000 and 750 mm wide shelving allows optimal usage of room space. Available in 3 different heights and 4 depth ranges, either with or without rear walls, and upright side panel fascia. Frame uprights are steel box section with smooth front surfaces. Shelves have a 40 mm edging for greater stability and are height adjustable in 59 mm steps. Load capacity per shelf 100 kg. All parts are polyester powder coated, in the following colour combinations, black RAL 9011 and light grey RAL 7035 or silver RAL 9006 and light grey RAL 7035.

Width of shelving unit = Quoted dimension + 30 mm, and additional 10 mm per Depth of unit = Quoted dimension + 40 mm
